

Exhaust hose for hot air, Neoprene, double coated

Product group	140
Bundled pipes/hoses	1
Flat coil	
Antistatic wire	
Max temperature (°C)	135
Reinforcement layers	1
Min temperature (°C)	-35

A hose suitable for transportation of hot steams, smoke and exhaust gases. Low-weight and extremely flexible, good in tight areas. The hose is non-inflammable and has good chemical resistance. Other dimensions are available on request.

	Working pressure (MPa)	ID (mm)	Vacuum pr. Max%	Length meter per coil	Bend radius (mm)	Weight (kg)
