Sealable textile hose protection

Product group	505
Max temperature (°C)	180
Min temperature (°C)	-40

Sealable hose protection is the ideal solution when you have a need to protect several hoses. The heavy velcro lock makes it possible to protect the hoses that are already assembled. The protection is made of fiberglass coated silicone, which makes it capable to handle environments with temperatures up to 200° C.

	Flat diameter (mm)	Round diameter (mm)
55267050	78	50
55267100	157	100
55267150	235	150
55267200	314	200
